MATT HUTTER
Full Stack Software Engineer

MatthewJHutter@gmail.com | (360) 853-1614 | Shoreline, WA   [Github](#) | [LinkedIn](#) | [Portfolio](#)

Software Engineer with 6 years as an A/V Technician. Skilled at operating closely in teams with excellent communication skills, understanding technical documentation, teaching technical concepts, and customer facing interaction. Passionate about continuous learning, climate tech, and the LGBTQ+ community. Skilled with completing high quality projects.

EXPERIENCE

Out In Tech Digital Corps (Volunteer)   **Seattle, WA**
Project Manager & Developer   September 2023
- Managed the development lifecycle for an LGBTQ+ nonprofit in South Africa, leading the team of 6 developers, in order to monitor progress, relay necessary information, and report to project lead.
- Aggregated essential contact information and developed interactive buttons on the contact page and custom footer
- Corrected layout issues in the navigation menu along with replacing photos for team members using the Wordpress content management system (CMS) through block manipulation

Meta (Contract)   **Redmond, WA**
Data Collection Technician (Collections Operations Technician)   May 2023- Present
- Troubleshot and debugged programs, software, and cameras to reduce downtime by 50%
- Prevented potential future issues by analyzing technical documentation of equipment and previous collections
- Manipulated and queried data sets utilizing Python, Pandas, SQL, and RegEx as directed by senior engineers

Alaska Universal Productions   **Fairbanks, Alaska**
A/V Technician   March 2014 - March 2020
- Maximized quality service and quick delivery/pickup of rented equipment by preparing rental equipment in advance, invoicing, and customizing interactions, increasing customer satisfaction and decreasing wait times
- Decreased downtime of equipment and loss of revenue by maintaining and repairing equipment in house
- Reduced time required for technical equipment setups performed by 10+ person teams by 25%
- Taught and led new employees on best practices of setup and safety for high quality and injury free event setup

PROJECTS

Flying Fox- Developer (JavaScript, Python, React / Redux, Flask, HTML, CSS, AWS)   [Live Site](#) | [Github](#)
Full stack web application that clones Squirrel.ws, selling wingsuits, skydiving, and BASE jumping gear
- Implemented a Local Storage shopping cart to significantly reduce standby time by avoiding calls to the database
- Integrated AWS S3 buckets with item reviews to facilitate custom image upload and hosting with new reviews
- Equipped the react-image-gallery NPM package to display an image gallery and carousel on items and homepage
- Assembled a backend using Python with Flask and SQLAlchemy to create an easy to navigate, robust system

Eatsy- Developer (Group Project - JavaScript, Python, React / Redux, Flask, HTML, CSS)   [Live Site](#) | [Github](#)
- Designed search bar with developer team using React and useQuery to find items by title or description
- Implemented Higher Order Components with React to display item pages and item cards, keeping the code DRY
- Built dynamic review component with star ratings using React to display a visual representation of given reviews

SoundClod- Developer (JavaScript, NodeJS, Express, React / Redux, HTML, CSS)   [Live Site](#) | [Github](#)
- Created individual pages for songs with a comment system styled using CSS to provide a seamless design
- Conditionally rendered unique homepage for authenticated users to provide a personalized user experience (UX)
- Incorporated an NPM package for persistent audio playback while navigating the app with React Router Dom
- Engineered an Express server with Node.js and established multiple REST APIs for future expansion

SKILLS

Languages: Javascript, Python, HTML5, CSS3, SQL, TypeScript
Frameworks / Tools: React / Redux, Node.js, Express.js, Flask, Pandas, Sequelize, AWS, Docker, REST APIs, Postgres
Key Skills: Pair Programming, Test Driven Development (TDD), Git / GitHub, Data Structures & Algorithms, Software Development Life Cycle (SDLC), Agile & Scrum Methodologies

EDUCATION

App Academy   **Remote**
Full Stack Software Engineering   April - December 2022
University of Alaska Fairbanks   **Fairbanks, Alaska**
Bachelor of Arts in Psychology   September 2008 - May 2011
